I-n-v-e-n-t-o-r-y S-a-l-e!

Now, during our annual clean-up, straighten-up sale, you can stock up on top quality **FINER LINERS** at great savings. We guarantee prompt service and satisfaction just as always.

3% PICK-UP DISCOUNT: We can move out more stock in a shorter amount of time and save on packing materials if you pick up your order. These savings we pass on to you by deducting 3% from the total amount of your order.

SHIPPING: For our distant customers and those who can not get away to pick up their orders we assure our usual **EXCELLENT PACKING WITHOUT CHARGE**.

DELIVERIES: Will be made at actual costs only when quantities permit.

POOL ORDERS: You may save shipping or delivery costs & perhaps enjoy quantity discounts if you consolidate your order with one or more other nurseries. We can not bill, ship or deliver such orders seperately however.

BUSINESS HOURS: 7:30 a.m. to noon, 1:00 to 5:00 p.m., Sat. 7:30 to noon.
WE ARE CLOSED ON SUNDAYS, INDEPENDENCE DAY AND LABOR DAY.

TELEPHONES: Area Code 201: Office FO 9-5211, Night FO 9-4339

TERMS & CONDITIONS OF SALE: Usual. Please see our Spring 1962 catalog.

DIRECTIONS: We are located in the beautiful Raritan Valley of North Central New Jersey, Somerset County, about 4 miles south of Rte 202. You will find a map on the center fold of our Spring 1962 catalog.

ROYAL STAR MAGNOLIA

(Magnolia stellata "Royal Star")

ACCLAIMED BY PLANTSMEN HERE AND ABROAD

★ ROYAL STAR has large, pure white, 25 to 30-petal blossoms that literally cover the plant in a galaxy of bloom.

- ★ ROYAL STAR is pleasantly fragrant.
- ★ ROYAL STAR blooms from a week to 10 days later than ordinary stellata, thereby reducing the disadvantages of blemished blossoms caused by spring frosts. It is very hardy (Zone 5a).
- ★ ROYAL STAR is a compact, robust plant with rich bright green foliage. It branches well and is a rapid grower.

SEED — SEEDLINGS — TRANSPLANTS

SPECIES AND HYBRIDS—AZALEA, LEUCOTHOE, PIERIS, RHODODENDRON

STARTED SEEDLINGS are available throughout the year as the supply lasts. Sowing is done during the winter and the size of the seedlings will vary with the species or clone and the age, those pictured above being about 6 months. The quantity per flat will likewise vary between 300 and 600 during the first 6 months or so after which some of the smaller seedlings may smother. Cultural suggestions are furnished with each order. Half flats may be purchased for 60% of the appropriate full flat price.

DISCOUNTS: 10 flats, deduct 5%; 25 flats, deduct 10%. 2 half flats equal 1 whole.

TRANSPLANTS are offered in flats and in 2 1/2" and 3" peat-moss pots. They are healthy sturdy little plants with well developed root systems. The 3" pots are mostly twice transplanted.

REDUCE PRICES OF ALL TRANSPLANTS BELOW (4 COLUMNS ON THE RIGHT) AS FOLLOWS: 1 yr transplants - deduct 10% (1/10), 2 yr transplants - deduct 20% (1/5)

NOTE: Seedlings of hybrid clones do not present plants of character identical to the parent from which seed was picked and must not be named thereafter. A large enough percentage should, however, be of equal or better character as to make planting both profitable and interesting. Cultivar names and descriptions are used here for general interest only.

ILEX CRENATA 'GLORY'

NEW COMPACT JAPANESE HOLLY.

Truly a glorious holly that has passed all tests with honors. The short bushy, free branching growth make it an excellent compact. The small leaves are dark green and glossy. All these combine to give 'GLORY' an unusual attractiveness.
